

Help NERDS Go, Give & Grow June 19-21, 2020

What is Go Give Grow

The Go Give Grow initiative provides the opportunity to travel, participate in a service learning experience, and reflect on the experience. Aside from having the time of their life and gaining memories that last forever, there are a number of important advantages that students achieve from experiencing travel and service learning opportunities. Funds cover the cost of transportation, lodging, food, and outings for 20 people for a 3 day trip.

Destination: Chicago, IL

Service Learning Experience

Students visit a senior living facility/nursing home to work with the elderly.

Exploration of STEM

Students visit the Chicago Museum of Science and Industry to spark scientific inquiry and creativity.

Cultural Immersion

Students visit the DuSable Museum of African American History to learn about the achievements, contributions, and experiences of African Americans.

Research in Practice

Students visit the Lincoln Park Zoo as an extension to our research curriculum. Students will take part in the "observe to learn" experience provided by the zoo.
